

Crossover Unit Standards

The Approved Code of Practice for Cranes Part 4: Requirements for Persons Operating or Working with Cranes (pp47)

Under the ACOPs for Cranes there are two scenarios where there is cross over for qualifications.

If an operator holds Unit Standard 3795 for Mobile Crane Operations then he can also operate a Truck Loader Crane.

An operator can hold either Unit Standard 15757 or 23351 to qualify to erect, climb or dismantle other tower cranes

Minimum Unit Standards Requirements

Type of Crane	3789	3790	3794	3795	3800	3818	15757	16617	20208	20209	20526	23351	24511
Mobile Crane Operation													
Truck Loader Crane Operation													
Erection, Climbing or Dismantling of other Tower Cranes
