Friday 19th July

10.00am – 12.00pm	Personalised Shopping Visit to Thomas Department Store	MCC Pre-Function Area Foyer
12.00pm onwards	As per delegates programme	MCC Pre-Function Area Foyer

Greg Ward - Master of Ceremonies

Greg Ward is the most prominent business MC in the New Zealand conference and events market and is fast gaining recognition within Australia.

Greg's approach is professional, well-prepared and engaging, commanding audience attention with sincerity and humour as appropriate to the occasion.

Mike Allsop - Keynote Speaker
Plan, Plan, Plan

Airline pilot, Everest mountaineer, adventurer and extreme marathon competitor, Mike Allsop is an ordinary family man proving that anybody can accomplish extraordinary things.

Mike Allsop grew up in a single parent home in Auckland. Life wasn't always easy. But Mike never wavered in his dream of becoming an airline pilot with Air New Zealand. He single-mindedly pursued this goal, breaking it down into smaller parts then focusing on each step in turn. He began by obtaining a pilot's licence and a job with a small commuter airline.

As well as becoming an Air New Zealand captain, Mike harboured another ambition. One day, he wanted to stand upon the roof of the world and summit Everest. True to form, he broke the goal down and gained the necessary skills and experience by testing himself on difficult and potentially hazardous climbs across 6 different continents. Many were usually only tackled by vastly more experienced climbers.

He has since gone on to conquer numerous other mountains, pitting himself against the limits of human endurance and the unpredictable weather conditions that abound at extreme altitudes. He's narrowly dodged a fatal avalanche in Peru, risked being shot in Russia and returned a replica of a stolen Yeti hand to a monastery in Nepal.

Mike is also one of a handful of athletes who have ever run 7 marathons in 7 days on 7 continents. This raised NZ\$75,000 for New Zealand charity KidsCan.

Mike has since returned to the Himalayas to run the world's highest marathon around Everest – a feat never before attempted.

Peter Silcock
Chief Executive, Civil Contractors New Zealand
Building Our Future

After a career working for industry bodies in the horticulture industry Peter took up his current role in 2015 following the merger of Contractors Federation and Roding NZ.

Peter was employed for his knowledge and experience in managing membership organisations, government advocacy, strategic planning and building strong partnerships.

He is an advocate of industry self-management and has been closely involved in the development of CCNZ Civil Trades Apprenticeship Scheme, EPIC Careers in Infrastructure programme and the organisation's work around procurement and initiatives that support a healthy civil construction industry.

Jon Harper-Slade
General Manager, Skills & Competency, Construction Health & Safety New Zealand
Health & Safety in the Construction Industry

Jon is a Chartered Member of the Institute of Occupational Safety and Health and a Certified Member of the New Zealand Institute of Safety Management. He is married to Liz and together they live in West Auckland, with their dog Flo and two cats; Daisy and Colin. A passion for helping people has motivated Jon through a varied career in Health and Safety. In the UK he was Head of H,S&E for a global research and consultancy business which led to work in the Middle East and Africa. Arriving in New Zealand about 4 years ago, he has worked mainly in the Construction sector for both client and constructor organisations. Jon was GM of the Construction Safety Council and is now GM Skills & Competency for Construction Health and Safety New Zealand (CHASNZ), which leads the ConstructSafe scheme. Before his Health and Safety calling, Jon worked as a Pavements Engineer in the UK and before that had a military career working with Ammunition and Explosives. and Chairman since 2014.

Jonathan Bhana-Thomson,
Chief Executive Heavy Haulage Association
Cranes and Heavy Haulage Working Together

Jonathan has been with the NZ Heavy Haulage Association for nearly 19 years, 15 of these as its CEO. The Association is the national advocacy body for the specialised oversize transport sector for more than 50 years.

Jonathan has been instrumental in advocating for the oversize transport sector, developing better communication with organisations from NZ Transport Agency through to road works crews.

Developing industry good practice, improved training and recognition of industry skills, knowledge and experience, as well as advocating for the preservation of oversize load routes around NZ are his current prime aims for the Association.

Malcolm McWhannell
Technical Advisor, Brian Perry Civil
Problem Solving in the Crane Industry

Life Member of the Crane Association, former Crane Leader of the Year and Crane Trainer of the Year and current member of the Crane Association of New Zealand Council, Malcolm has an impressive involvement with the industry.

Commencing work for Brian Perry Civil in Hamilton directly from college, Malcolm started work as a labourer for the company and is currently Technical Advisor. He has worked on a variety of large projects both in New Zealand and the Pacific Islands.

Malcolm is passionate about the Association, the industry and about training.

Kevin Badcock

LLM (construction law, arbitration & adjudication), LLB, NZCE (Civil), REA – Lawyer, Engineer, Contractor

Construction Contracts Act 2002

Kevin is a construction lawyer, engineer and contractor. For over 30 years he has been actively involved in the construction industry as a contractor and technician engineer, and now as a specialist legal counsel. He presently operates his own legal practice along with his two lawyer daughters specialising in the resolution of construction disputes, with a particular focus on all matters relating to the Construction Contracts Act 2002.

He is the Honorary Solicitor for the Specialist Trade Contractors Federation and regularly acts for parties on a pro bono basis on important industry issues.

Tom Smith

President, Crane Industry Council of Australia

The Crane Scene in Australia

Tom has been active in the Crane Industry since 2001 and is now the Managing Director of McKay United, a premier Crane Hire Company with depots in Melbourne, Geelong and Hobart. Starting his career as a rigger, Tom made the progression into business administration, completing a Bachelor of Economics and an MBA.

Tom’s experience enables him to lead strongly on strategic and operational activities. He has strong connections with both employees and clients - and strives to deliver excellent service, safely.

Tom is passionate about representing ‘Crane Hirers’ and giving a voice to their needs. This led him to join the executive of the Victorian Crane Association in 2006. He served in this role until the State branches were amalgamated in 2014. In 2013, Tom joined the national board of the Crane Industry Council of Australia as a Director and was elected as the Board President in 2018.

Clive Marple

Auckland Branch Manager, Cookes

Fall Protection Demonstration

Clive has been involved with the safety industry since 1970 and has specialised in height safety products and solutions since 1977. He has worked mainly in product sales and has travelled the world working with manufacturers to identify products that provide workable solutions for his customers. He has found that unless the products are user friendly and assist the user in doing the job at heights, it doesn’t get used as the focus is on getting the job done.

He has worked in an Australian height safety equipment manufacturing plant, managing a height safety soft goods sewing operation and was also in charge of testing the products for AS/NZS Standards certification. He then further specialised with permanent height safety systems and was GM for a UK based manufacturer of permanent height safety systems in Australia, which involved the designing and installation of systems in all Australian States. Prior to returning to New Zealand he was Operations and Safety Manager for an abseiling company with 8 permanent abseilers working on various structures from High Rise apartments in the Gold Coast to large road cutting embankments providing stability and safety repairs.

Since returning to New Zealand he has been a trainer in height safety, confined spaces and EWP equipment and joined Cookes in May 2015 to co-ordinate and promote Cookes as a “Total Solution Supplier” to their customers. In April 2016 he visited Austrian, German and Swiss manufacturers to source the most up to date height safety solutions and now Cookes are the New Zealand agents for Innotech Safety Systems, Mittelman Rescue Systems and Abra walkways and ladders.

Clive will be demonstrating drop testing and fall arrest forces along with rescue equipment showing how to escape safely and quickly from heights.

EXHIBITION

The Trade Exhibition Hall adjacent to the Grand Hall is the location of the CANZ 2019 Trade Exhibition. The Trade Exhibition is open at the following times:

Wednesday 17th July	5.45pm – 8.30pm
Thursday 18th July	8.30am – 6.00pm
Friday 19th July	8.30am – 1.00pm

The Originals Welcome Reception will be held in the Trade Exhibition Hall between 5.45pm – 8.30pm on Wednesday. The Trade Exhibition area is also the venue for morning and afternoon tea and lunch, and the networking session on Thursday evening.

Titan Construction Equipment

Titan Construction Equipment specialises in new and used crane sales and holds the exclusive agency in New Zealand for all Terex and Kato cranes.

Our dedicated crane staff have a wealth of technical knowledge and expertise to assist customers throughout New Zealand following the core principal of "you can't sell a crane if you can't back it up."

Additionally, we carry an extensive inventory of spare parts stock and with direct access to our principals, can order and have spare parts flown in within 48hours.

Terex

Terex Corporation is a global manufacturer of lifting and material processing products and services delivering lifecycle solutions that maximize customer return on investment.

When you choose Terex Cranes products, you get more than equipment designed for reliability, easy operation, convenient service and uncompromising safety. You also get tailored service and support from a team that understands your challenges. We believe our job is to make your business better. From the Australian Made Pick & Carry Crane, Crawler and Tower Cranes, Road and All-Terrain Mobile Cranes, Terex Cranes has products that offer you exceptional performance, safety and reliability.

KATO

For over a century, Kato have followed the motto: "Contributing To Society By Providing Excellent Products." Kato continues developing a variety of machines to meet the needs of the day for the lifting and construction industries. Current technologies can be traced back through their long history of developing original technologies. Since their establishment, they have valued creativity and challenged the limits of technological innovation with a pioneering spirit.
